New & Improved Ice State of the Art Water Rescue Techniques Incident Investigations

8a-12 pm

1p-5 pm

- Multiple victims in multiple holes
- Long distance ops (>300 ft)
- Very thin ice & negatively buoyant, weak victims
- Dog rescue—how not to get bitten
- If you're still going behind & wrapping the victim in your tether it's time to update!
- Learn what information is critical to collect and document
- The red flags of homicidal and staged drownings
- Openwater, pool, bathtub, bucket, sink and other aquatic arenas.
